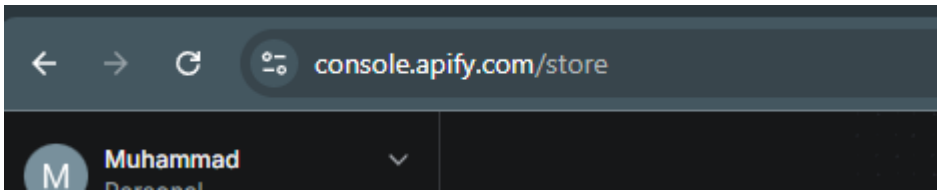
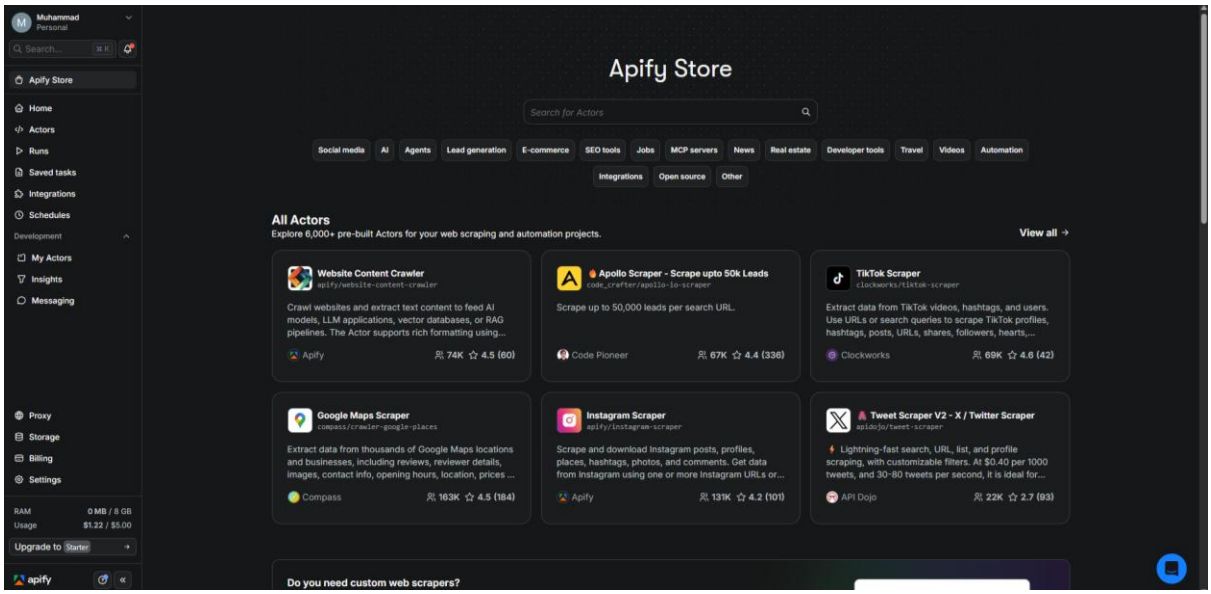
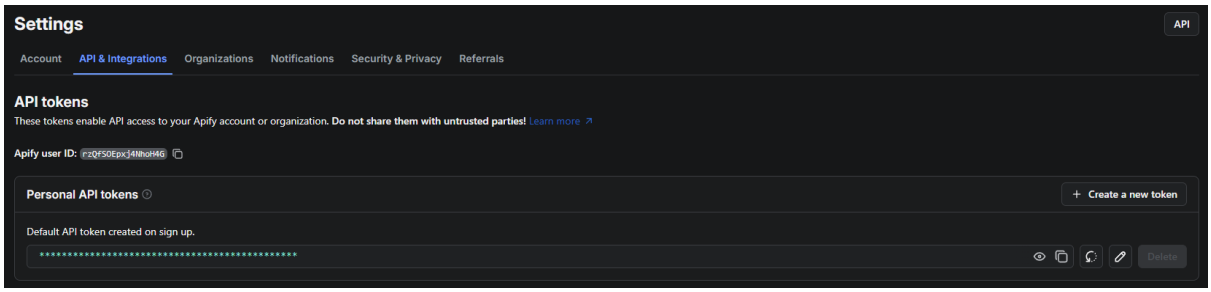
# TUTORIAL AMBIL API TOKEN (APIFY)

Buka **Apify Console** di browser:





Pilih **Settings** di pojok kiri bawah lalu pilih **API** & **Integrations**:



Copy **API** token lalu paste di dalam variable client (main.py):

```
# Initialize the ApifyClient with your API token
client = ApifyClient("apify_api_MWnaKbw4uNkX5KiRtBh1xAGvAaQUCE3nDofU")
```
